Realtime Internet Protocol  
**Kolibri**

# Everything you need for your personal Internet of Things

## IoT Reference Model

## Components

### Cloud:

- realtime in-memory database
- load balancer
- dynamic user interface
- streaming automation
- streaming analytics
- history database
- report generator
- alarm manager
- HMI generator

### Hardware:

- edge computing devices
- various industrial interfaces
- realtime fieldbus connection
- amazing IoT as a chip platform

### Software:

- local CODESYS PLC
- WEB PLC
- realtime Linux based operating system
- unbeatable Eclipse based development tool
